

YLN LIBRARY NETWORK MANAGER'S MONTHLY REPORT

April 2012

LIBRARY NETWORK MANAGER'S LOWDOWN

The Arizona Customers of Dynix (AZCODI) meeting was quite successful. While membership is down from previous years break-out sessions are still just as valuable. This year the state library gave a presentation on Open Library and SirsiDynix sent several representatives to discuss their product roadmap. One of the most exciting new items they discussed is a browser-based cataloging client that promises to make cataloging more efficient. It is supposed to reduce the cataloging process from over 20 steps to only three. Hopefully it will live up to what was shown.

Web Services 3.2 was installed on the Symphony production and test servers. It was installed in anticipation of the potential implementation of new SirsiDynix services. Web Services is required for these new packages to work. So far Bookmyne (an app for the Apple and Android-based smartphones) and Enterprise (SirsiDynix's new OPAC) require Web Services. At some point Web Service may also become the standard way to interface with the database replacing the current API. Symphony 3.4.1 Service Pack 1 has also been installed. It had a few tweaks and bug fixes.

The end of the school year is upon us. If you are a K-12 library please submit all of your end-of-the-year dates so that we know when to turn off holds, stop transiting items, enter final due dates, etc.

Ebrary records should be up to date. Batch deletions are in place. Updates occur on a weekly basis.

A discovery was made that indicates circulation staff at several libraries have been entering invalid user profiles for their patrons/students. In an effort to reduce the likelihood of this happening in the future, YLN staff are going to be limiting each library to only those User Profiles that they need to operate. An email was sent out with all the pertinent information. If you have any questions please don't hesitate to call. If YLN staff is not received a help desk ticket with your user profile preferences by 5/14/2012 the only User Profiles you will have access to will be the ones that were selected during the migration.

Respectfully Submitted,

Corey Christians

Library Network Manager
